primary)">Select your geography Tick Global, individual countries, or full regions. Each item costs $20.

2 Add segmentation (optional) Turn on 3-level segments for +$99 flat — applied across all your selected geographies.

3 Auto-cap saves you money Select 10+ countries? Price auto-caps at $199. Add segments? Caps at $299. You never overpay.

✨ Smart caps — the more you select, the more you save

Select 10+ countries and your total caps at $199 — even if 17 countries would cost $340 individually. Add segmentation and the total caps at $299 — instead of $199 + $99 = $298, or even higher for custom countries.

🌐 $20 Global Market Size Total worldwide market estimates, CAGR & forecasts

🇨🇳 $20 Per Country Market size + forecast for any country — US, China, Germany, etc.

📊 +$99 3-Level

Segmentation Flat fee — segments applied at global, regional & country level

AUTO-CAPS

10+ countries selected Price stops at $199, no matter how many $199

Countries + Segmentation Everything included, price stops at $299 $299

<h3 style="font-size:1.15rem;font-weight:700;color:var(--primary)">See it in action</h3> Here's what real configurations would cost:

Only US market data $20 1 country × $20

Global + US + segments $139 $20 + $20 + $99

North America (2 countries) $40 2 countries × $20

All 17 countries $199 $340 → auto-capped

5 countries + segments $199 $100 + $99

All countries + segments $299 $199 + $99 → capped

<div style="background:var(--primary);color:white;display:inline-block;padding:.9rem 2.5rem;border-radius:60px;font-weight:700;font-size:1rem;cursor:pointer;transition:.2s" onclick="startReport()"

<h2>Your analyst-verified market report, delivered in 60 minutes.</h2> No RFPs. No 6-week timelines. No $5,000 invoices. Download a free demo Excel right now to see the exact report structure — no payment required. When you are ready, purchase and our analysts will validate every number before delivering the full report to your inbox. Questions about the data? Just email us. <button class="dark-cta-btn" onclick="startReport()">Download Free Demo Excel →</button> FREE DEMO INSTANTLY · FROM $20/COUNTRY · AUTO-CAPS AT $199/$299 · ANALYST-VERIFIED

<section class="faq" id="faq-sec"> FAQ Got questions? We have answers. Can I see the report structure before paying? + Absolutely — and you do not need to pay anything. You can download a free demo Excel instantly for any market and any package configuration. The demo contains the exact same structure, formatting, sheets, and segmentation as the paid version — just with placeholder "xx.xx" values instead of real data. Review everything first, and purchase only when you are satisfied with the structure. What will I receive after purchase? + Within 60 minutes of payment, you will receive a professionally structured .xls Excel file delivered to your registered email. Before delivery, our in-house analysts review the segmentation and validate the market numbers to ensure accuracy. The file includes multiple sheets — Home, Global, Regional, and Country-level tabs with full market sizing data and segment breakdowns. Note: You can also download a free demo Excel instantly before purchasing to preview the exact structure and layout. Why does delivery take 60 minutes? + Unlike auto-generated reports, every Forecastly.io report goes through a human review layer. Our in-house research analysts reconfirm the segmentation structure, cross-check data sources, and validate the market numbers before the file reaches you. This ensures you get reliable, boardroom-ready data — not just raw outputs. Which countries are included in the base price? + Every report includes 13 countries across 5 regions: US, Canada (North America), Germany, UK, France (Europe), China, Japan, India, South Korea (Asia-Pacific), Saudi Arabia, South Africa (MEA), Brazil, Mexico (Latin America) — plus "Rest of" aggregates for each region. Need more countries? Add them at $10/country (Professional) or $20/country (Enterprise). What payment methods do you accept? + We accept payments through Stripe (all major credit and debit cards, Apple Pay, Google Pay) and PayPal. All transactions are secure and encrypted. You will receive a payment confirmation and your unique report ID immediately after checkout. The report delivery begins right after payment is confirmed. What if I have questions about the data after purchase? + <div class="faq-

a">We stand behind every report. If you have questions about any numbers, methodology, or data points in your delivered report, simply email us at support with your report ID. Our research team will review your query and respond with clarifications, additional context, or corrections if needed — at no extra cost. How is the market segmentation generated? + Our engine analyzes your report title and generates 3 levels of segmentation tailored to that specific market. For example, an EV market report gets segmented by Vehicle Type, Component, and End-User — while a pharma report gets Drug Type, Therapeutic Area, and Distribution Channel. Before delivery, our analysts verify that the segmentation is appropriate and accurate for your market. Enterprise plans include segment data at global, regional, and country level. What is the difference between Basic, Professional, and Enterprise? + There are no fixed packages. You build your own report — select Global ($20), add any countries ($20 each), and optionally turn on 3-level segmentation (+$99 flat). If you select 10+ countries, the price auto-caps at $199 — even if individual pricing would be higher. With segmentation, it caps at $299. You only pay for what you need, and the system automatically gives you the best price. </section>

Your Journey

<h1>How It Works</h1>

From your first search to a fully validated Excel datasheet in your inbox — here's every step of the process, in detail.

Step by step

<h2>Your Report, in 5 Simple Steps</h2>

Each step is designed to give you full control over what you get, at a price you choose — with zero lock-ins or hidden costs.

1

<h3>Search any market</h3>

Type any market, industry, or niche into the search bar on our homepage. Our engine instantly recognizes the sector and prepares a structured report scope — no need to browse a catalog or fill out an inquiry form.

You can search for anything: from broad sectors like "Renewable Energy" to ultra-specific niches like "Solid-State Battery for Electric Vehicles" or "AI-Powered Drug Discovery Platforms."

Any market or niche

No catalog browsing

Instant scope generation

Try searches like: "Electric Vehicle Battery Market", "Cybersecurity SaaS", "Digital Therapeutics", "Semiconductor Wafer"

2

<h3>Configure your report</h3>

Once inside the report builder, you get full control over every parameter. This is where you decide exactly what data you need — nothing more, nothing less.

Geography: Select the Global overview ($20), tick individual countries ($20 each), or select entire regions. We cover 17 countries across 5 regions — North America, Europe, Asia-Pacific, Middle East & Africa, and Latin America. Need a country not in the list? Add it as a custom entry.

Segmentation: Toggle on 3-level market segmentation (+$99 flat fee). Our engine auto-generates segment categories based on your market — for example, an EV report gets "By Vehicle

Type", "By Component", and "By End-User". Segmentation data is applied at global, regional, and country level.

Forecast: Choose your base year (2024 or 2025) and forecast period — 5 years, 7 years, or the full horizon to 2033.

Metric & Currency: Select Revenue (USD/EUR/GBP/JPY Million), Volume (Units/Tons), or both. When you select both, each table appears twice — revenue first, then volume below it.

17 default countries

Custom country support

3-level segmentation

Multi-currency

Revenue + Volume

Up to 10Y forecast

3

<h3>Preview with a free demo Excel</h3>

Before spending a single rupee, download a free demo Excel to see exactly what your report will look like. The demo contains the complete structure — every sheet, every table, every column — but with placeholder "xx.xx" values instead of actual data.

This lets you verify that the report covers what you need: the right countries, the right segments, the right time horizon. If anything needs adjustment, change your configuration and download another demo — as many times as you want.

Instant download

No payment needed

Exact same structure as paid

Unlimited previews

The demo Excel is not a sample from a different market — it's generated from YOUR exact configuration, with your selected countries and segments.

4

<h3>Purchase securely</h3>

Happy with the structure? Hit "Buy Now" to complete your purchase. The pricing calculator shows your total in real-time as you configure, with no hidden fees.

How pricing works: Each country or Global = $20. Segmentation = +$99 flat. If you select 10+ countries, the price automatically caps at $199 — even if individual pricing would be higher. Add segmentation and it caps at $299. You always get the best possible price.

We accept Stripe (all major credit/debit cards, Apple Pay, Google Pay) and PayPal. Your payment is confirmed instantly and you receive a unique Report ID for tracking.

Stripe & PayPal

Auto-cap at $199 / $299

No hidden fees

Instant confirmation

5

<h3>Analyst review & delivery in 60 minutes</h3>

This is what sets us apart. After payment, your report doesn't get auto-generated and dumped into your inbox. Instead, our in-house research analysts take over:

Minutes 1–5: Our data engine pulls relevant estimates from the DataHorizzon Research repository — a library of 70,000+ syndicated reports across 200+ industry verticals.

Minutes 5–40: An analyst reviews the segmentation structure, validates the market numbers using top-down and bottom-up triangulation, checks country-level proportionality, and flags any anomalies for correction.

Minutes 40–55: The final Excel workbook is assembled with styled tables, branded formatting, source attribution, and CAGR calculations across all sheets.

Minute 60: The completed, analyst-verified Excel report lands in your inbox with your Report ID. You can also access it anytime from your client dashboard.

Human analyst review

70,000+ report database

Top-down + bottom-up

Email delivery

Dashboard access

Have questions about any number after delivery? Email us with your Report ID — our research team will respond with clarifications at no extra cost.

<!-- DIVIDER -->

What you get

<!-- WHAT YOU GET -->

Your deliverable

<h2>What's Inside Your Excel Report</h2>

Every report is a multi-sheet .xls workbook with structured data tables, styled formatting, and source attribution. Here's exactly what each section contains.

🏠

<h3>Home Sheet — Report Summary</h3>

The first sheet gives you a complete overview of your report configuration at a glance.

<ul class="wyg-list">

<li>Report title and market description</li>

<li>Selected countries and regions</li>

<li>Forecast period and base year</li>

<li>Metric (Revenue/Volume/Both) and currency</li>

<li>Segmentation status and pricing summary</li>

<li>Branded Forecastly.io header with report metadata</li>

</ul>

🌐

<h3>Global Sheet — Worldwide Market</h3>

The global overview of your market with total market size, regional breakdown, and segment analysis.

<ul class="wyg-list">

<li>Global revenue line (base year through forecast)</li>

<li>Region-by-region breakdown table (if countries selected)</li>

<li>CAGR column for each row</li>

<li>Segment tables (if segmentation is ON) — one per level</li>

<li>Source attribution row below each table</li>

</ul>

🗺

<h3>Regional Sheets — Country Breakdowns</h3>

One dedicated sheet for each region you selected, containing country-level granularity.

<ul class="wyg-list">

<li>Regional total revenue/volume line</li>

<li>Country-by-country table within that region</li>

<li>Per-country segmentation tables (Enterprise)</li>

<li>Custom countries appear alongside default countries</li>

<li>Consistent formatting across all regional sheets</li>

</ul>

🔍

<h3>Segmentation — 3 Levels of Depth</h3>

When segmentation is enabled, you get three layers of market breakdown — tailored to your specific market.

<ul class="wyg-list">

<li>Auto-generated based on your report title keywords</li>

<li>Example: EV market → By Vehicle Type, By Component, By End-User</li>

<li>Applied at global, regional, AND country level</li>

<li>Each segment table includes items, yearly data, and CAGR</li>

<li>Analyst-verified for relevance before delivery</li>

</ul>

📈

<h3>Revenue Data — Market Size in Currency</h3>

When Revenue is selected as your metric, every table shows market value in your chosen currency.

<ul class="wyg-list">

<li>Available in USD, EUR, GBP, or JPY</li>

<li>Values displayed in Millions (Billions for JPY)</li>

<li>Year-by-year estimates from base year to forecast end</li>

<li>CAGR calculated from base to final year</li>

<li>Total row with aggregated figures</li>

</ul>

🎁

<h3>Volume Data — Units & Tonnage</h3>

When Volume is selected, tables show physical quantities instead of currency — ideal for manufacturing and commodity markets.

<ul class="wyg-list">

<li>Measured in Units or Tons (market-dependent)</li>

<li>Same structure as revenue: yearly + CAGR</li>

<li>When "Both" is selected: revenue table first, then volume table directly below — for every section</li>

<li>Both metrics in one workbook, no separate files</li>

</ul>

<!-- EXCEL PREVIEW -->

<h3 style="font-size:1.1rem;font-weight:700;color:#0A3D62;margin-top:2.5rem;margin-bottom:.5rem">Preview: What Your Excel Looks Like</h3>

Here's a snapshot of the actual structure you'll receive — with placeholder values replaced by real analyst-verified data after purchase.

Research Methodology

<h1>Behind the Numbers</h1>

Every datapoint in your Excel goes through a rigorous, multi-layered research process. Here's exactly how we turn raw intelligence into analyst-verified market estimates you can trust in boardrooms.

<!-- DATA FOUNDATION -->

Data Foundation

<h2>Powered by 70,000+ Research Reports</h2>

Every Forecastly.io estimate begins with DataHorizzon Research — our proprietary intelligence backbone with one of the largest repositories of syndicated market research in the industry.

<h3 style="color:white;font-size:1.3rem;margin-bottom:.8rem;font-family:'Space Grotesk',sans-serif">DataHorizzon Research Repository</h3>

Our data engine draws from a continuously updated library of market intelligence spanning every major industry vertical — from semiconductors to pharmaceuticals, energy to fintech. This isn't scraped data or AI hallucinations. It's structured, source-validated research compiled by domain analysts over the past decade.

Updated quarterly with new reports, revised forecasts, and expanded country coverage across all active sectors.

70,000+ Published Reports

200+ Industry Verticals

50+ Countries Covered

10Y Forecast Horizon

<!-- DUAL APPROACH -->

Estimation Approach

<h2>Top-Down Meets Bottom-Up</h2>

We don't rely on a single estimation method. Every market size figure is triangulated using two independent approaches — and only published when both converge within an acceptable variance range.

APPROACH 1

<h3>▼ Top-Down Approach</h3>

Starts from the macro level and narrows down. We begin with the total industry output or global market value from established databases, then apply filters to isolate the specific market segment.

How it works:

1. Begin with total industry revenue from government statistics, trade associations, and international bodies (World Bank, IMF, UN Comtrade)

2. Apply segmentation ratios derived from industry reports to isolate the target market

3. Use regional GDP contribution, industry concentration, and trade data to break down by geography

4. Cross-reference with company financial disclosures, annual reports, and investor presentations for revenue benchmarks

Best for: Mature markets with

established industry-level data. Provides the overall market ceiling and validates bottom-up estimates.

APPROACH 2

<h3>▲ Bottom-Up Approach</h3>

Starts from individual data points and builds upward. We aggregate company-level revenues, unit shipments, pricing data, and capacity utilization to construct the market from its components.

How it works:

1. Identify all major and mid-tier players in the market using competitive intelligence databases

2. Extract segment-specific revenue from annual reports, SEC filings, investor calls, and press releases

3. Estimate private company revenues using employee count proxies, funding data, and market share intelligence

4. Aggregate across all players, add tail-end estimates for smaller firms, and validate against import/export data

Best for: Emerging and fragmented markets. Provides granular accuracy and validates the top-down ceiling.

🎯 Triangulation & Convergence

Both approaches are run independently. If estimates converge within a 5-8% variance, the average is taken as the final figure. If variance exceeds this threshold, our analysts investigate the gap — checking for missing players, data anomalies, or structural market shifts — until the numbers align.

<!-- DATA SOURCES -->

Data Sources

<h2>Where Our Data Comes From</h2>

We combine six distinct categories of intelligence to ensure every estimate is grounded in verifiable, cross-referenced data — not assumptions.

📊 <h4>Company Financials</h4> Annual reports, SEC filings, investor presentations, earnings transcripts from 10,000+ public companies globally

🏛 <h4>Government & Trade Data</h4> National statistics bureaus, customs data, UN Comtrade, World Bank, IMF, trade association publications

🎤 <h4>Primary Research</h4> Interviews with C-suite executives, industry experts, supply chain managers, and domain specialists across sectors

📰 <h4>Industry Publications</h4> Trade journals, white papers, conference proceedings, patent filings, and peer-reviewed research papers

💼 <h4>Competitive Intelligence</h4> Product launches, M&A activity, partnerships, capacity expansions, pricing trends tracked across competitors

🗄 <h4>DataHorizzon Repository</h4> 70,000+ syndicated reports with historical data, validated segmentation, and forecasts across 200+ verticals

<!-- 60-MIN DELIVERY PROCESS -->

Delivery Process

<h2>How You Get Analyst-Verified Data in 60 Minutes</h2>

Our 60-minute delivery isn't a compromise on quality — it's the result of a pre-built data infrastructure that lets our analysts focus on validation rather than starting research from scratch.

📝 <h4>You Configure</h4> Select your market, countries, segments, and forecast period 0 min

💳 <h4>Payment</h4> Secure checkout via Stripe or PayPal 2 min

🔄 <h4>Data Pull</h4> Engine queries DataHorizzon repository and pulls relevant estimates 5 min

🔍 <h4>Analyst Review</h4> In-house analyst validates segmentation, checks numbers, flags anomalies 15-40 min

📊 <h4>Excel Build</h4> Structured workbook generated with all sheets, styling, and source attribution 45 min

📧 <h4>Delivered</h4> Excel emailed to your inbox with report ID 60 min

Why 60 minutes — not instant?

We intentionally avoid fully automated delivery because market data requires human judgment. An AI can pull numbers, but only an analyst can spot when a segmentation doesn't fit the market, when a country's numbers look off relative to its economic size, or when recent regulatory changes have shifted demand patterns. The 60-minute window gives our research team enough time to review, adjust, and sign off on every datapoint — so you get numbers you can present to leadership, not numbers you have to second-guess.

<!-- QUALITY ASSURANCE -->

Quality Assurance

<h2>Four Layers of Validation</h2>

Every report passes through four independent quality checks before it reaches your inbox.

🔢 <h4>Numerical Consistency</h4> Region totals must sum to global. Country totals must sum to region. CAGR must align with year-on-year growth.

📐 <h4>Proportionality Check</h4> Country market shares validated against GDP ratios, industrial output, and known consumption patterns.

🔄 <h4>Cross-Reference</h4> Estimates compared against at least 2 independent sources. Outliers are investigated and adjusted.

👁 <h4>Analyst Sign-Off</h4> Senior analyst reviews the final Excel for logical consistency, formatting accuracy, and data integrity before delivery.

<!-- FORECASTING MODEL -->

Forecasting

<h2>How We Build 10-Year Forecasts</h2>

Our forecasts aren't simple trend extrapolations. They're built on a multi-factor model that accounts for industry dynamics, macroeconomic conditions, and market-specific drivers.

<h3 style="font-size:.9rem;color:#0A3D62;margin-top:0">📈 Growth Drivers Analyzed</h3>

Technology adoption curves, regulatory tailwinds/headwinds, consumer demand shifts, investment inflows, supply chain capacity, competitive intensity, and macroeconomic indicators (GDP growth, inflation, FX rates).

<h3 style="font-size:.9rem;color:#0A3D62;margin-top:0">🎯 CAGR Calculation</h3>

Compound Annual Growth Rate is calculated from the base year to the forecast end year. Year-on-year growth rates may vary — early years often show higher growth in emerging markets, while mature markets show steady, linear progression.

<h3 style="font-size:.9rem;color:#0A3D62;margin-top:0">📊 Country-Level Forecasting</h3>

Country-level estimates are not simply global figures divided by GDP ratio. Each country's forecast considers its unique regulatory environment, infrastructure maturity, competitive landscape, import/export dynamics, and domestic demand patterns. For example, India's EV market forecast accounts for the FAME subsidy scheme and charging infrastructure gaps, while Germany's reflects EU emissions mandates and automotive industry restructuring.

<!-- POST-PURCHASE -->

After Delivery

<h2>We Stand Behind Every Number</h2>

Your relationship with Forecastly.io doesn't end at delivery. We provide full post-purchase support for every report.

📧 <h4 style="font-size:.85rem;color:#0A3D62;margin-bottom:.3rem">Email Support</h4> Questions about any data point? Email us with your report ID and our analysts will respond with clarifications.

🔄 <h4 style="font-size:.85rem;color:#0A3D62;margin-bottom:.3rem">Data Corrections</h4> If you spot an inconsistency or error, we investigate and send a corrected Excel — at no extra charge.

🔍 <h4 style="font-size:.85rem;color:#0A3D62;margin-bottom:.3rem">Methodology Brief</h4> Need to explain the data source to your leadership? We can provide a methodology summary for your internal use.

```

💡 How Pricing Works

• Each country = $20

• 3-Level Segmentation = +$99 flat

• 10+ countries → auto-caps at $199

• With segments → caps at $299

• Extra countries beyond cap = +$20 each

• Free demo Excel available for any config
